- Launch of HEXSelector

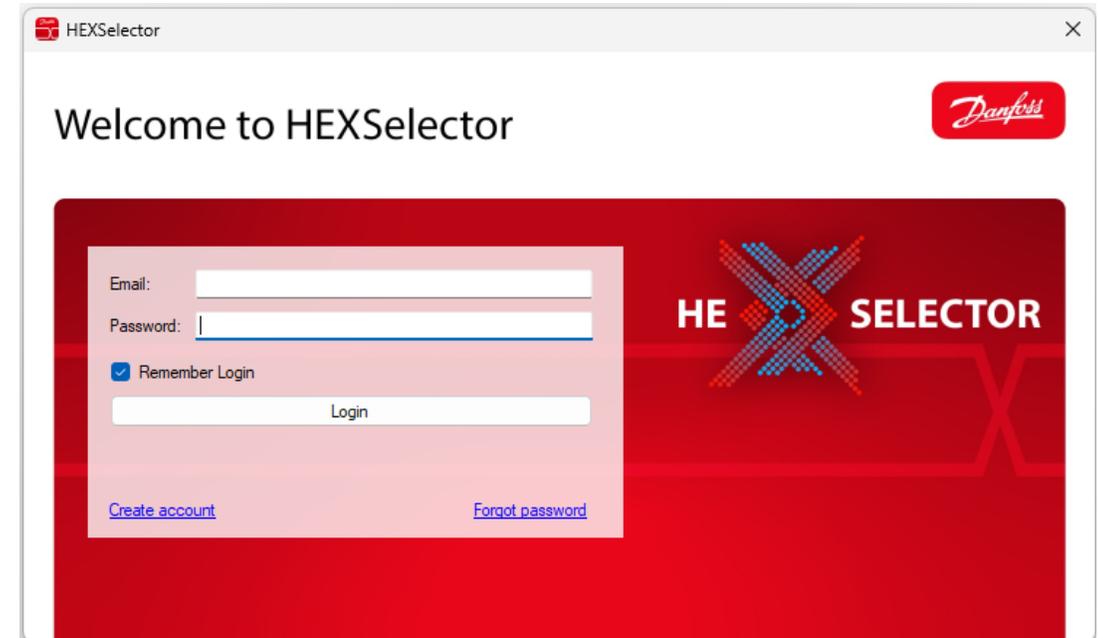

HEXSelector registration & Installation guide

- HEXSelector is a desktop calculation and configuration software for Danfoss plate heat exchangers
- To use it you must request a license, and consent to have your data stored
- We store your data in compliance with the EU Global Data Protection Regulation and Danfoss Privacy Policy
- The installation and registration process require your consent twice
- First at the installation process
- Second via an email sent to you

HEXSelector registration & Installation guide

- Note, we don't support Internet Explorer; please use a different internet browser!
- Installation process is tested and works well in following browsers:
 - Microsoft Edge
 - Google Chrome
https://www.google.com/chrome/?brand=CHBD&gclid=EAIaIQobChMIp6SendDL5gIVybHtCh2rGAPFEAAAYASAAEgIhhfD_BwE&gclsrc=aw.ds
 - Firefox
<https://www.mozilla.org/en-US/firefox/new/>

Registration & download site

- Start the registration process at the HEXSelector download site
- Link: <https://hexselector.com>
- Press the "here" link
- This registration guide is also available from this site

The screenshot shows the login interface for the HEXSelector account. At the top right, there is a red header with the text "ENGINEERING TOMORROW" and the Danfoss logo. Below this, the heading "Please login with your HEXSelector Account" is displayed. There are two input fields: "Email" and "Password". A blue "LOGIN" button is positioned below the password field. A blue link "Forgot Password" is located below the login button. The text "If you do not have an account you can request one [here](#)" is present, with the word "here" circled in red. Below this, it states "Your account request is subject to approval by Danfoss". At the bottom, there are three links: "Danfoss Privacy Policy", "HEXSelector Terms & Conditions", and "HEXSelector Registration Guide (PDF)", which is underlined in red.
